## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 3-4, and 14 are allowed (renumbered as 1-3).
2. The following is an examiner's statement of reasons for allowance: many references in the art disclose a security system for monitoring danger parameters comprising at least one danger sensor and a central unit connected to the at least one sensor, wherein the at least one danger sensor has a communication module having uniform dimensions and shape for different types, and wherein the communication module includes means for attaching the danger sensor to a mounting plate, such that found in Rolf (DE 3910514 A1). The prior art of record does not teach or suggest, in the claimed combination a security system for monitoring danger parameters, comprising at least one danger sensor and a central unit wirelessly connected to the at least one danger sensor, wherein the at least one danger sensor has a communication module, and wherein the communication module includes means for attaching the danger sensor to a mounting plate having a straight guide with means for preventing removal and wherein at least one danger sensor is attached to the mounting plate by directing the sensor into the straight guide in a vertical direction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
